SUMMARY

B.E. Computer Engineering graduate with hands-on internship experience in PHP, Laravel, and WordPress development. Skilled in developing dynamic and responsive web applications using MVC architecture, REST APIs, and MySQL. Proficient in HTML, CSS, JavaScript, Bootstrap, with experience in Git/GitHub for version control. Strong understanding of backend development, database integration, and clean, maintainable code, with a focus on building scalable real-world applications.

SKILLS

Languages: PHP 8, JavaScript (ES6+), SQL, HTML5, CSS3

Frameworks and Libraries: Laravel, React.js, Bootstrap, Blade, Eloquent Object-Relational Mapping (ORM)

Databases: MySQL, MongoDB, Schema Design, Query Optimization, Migrations, Indexing

Backend and API: REST API Development, JavaScript Object Notation (JSON), Authentication and Authorization, Middleware, Role-Based Access Control (RBAC), Payment Gateway Integration (Stripe, PayPal), Queues, Cron Jobs

Tools and Version Control: Git, GitHub, Composer, Postman, phpMyAdmin, Visual Studio Code, XAMPP/WAMP

Concepts: MVC Architecture, Object-Oriented Programming (OOP), SOLID Principles, Responsive Web Design, Agile/Scrum, Software Development Life Cycle (SDLC)

EXPERIENCE

PHP Laravel Developer
BM Coder InfoTech – Ahmedabad, Gujarat, India| 01/02/2026 - 30/08/2026

- Developed and maintained modules of a production e-commerce web application using **PHP, Laravel, and MySQL** under MVC architecture, supporting **500+ products/users** across **10+ catalog categories**. Designed and implemented RESTful API endpoints consumed by the web front end, standardizing JSON responses and error handling across endpoints.
- Built **REST APIs, CRUD modules, authentication, dashboards, and database functionality** across multiple projects.
- Integrated **Stripe and PayPal** payment gateways and implemented secure checkout functionality for the E-Commerce application.
- Developed **Laravel, PHP, and MySQL** modules for E-Commerce, Hotel Management, and Job Portal applications using **MVC architecture**.

PROJECTS

Smart-Cart – E-Commerce Web Application | PHP, Laravel, MySQL, Bootstrap, AJAX, Stripe, PayPal

- Developed a Laravel-based e-commerce platform with **admin and customer panels**, product management, cart, checkout, and order tracking.
- Implemented authentication, role-based access control, and server-side form validation to secure administrative routes and customer account data.
- Integrated Stripe and PayPal REST APIs for card and wallet payments, with transaction logging and automated order status updates on payment confirmation.

Stay-Ease - Hotel Management System | PHP, Laravel, MySQL, React.js, Bootstrap, REST API

- Developed a hotel management system for **room management, bookings, customers, and administrative operations**.
- Built REST API endpoints, authentication, and Create-Read-Update-Delete (CRUD) modules in Laravel and MySQL, standardizing data access for staff and admin operations.
- Created responsive interfaces using React.js, Bootstrap, and JavaScript for staff-facing and customer-facing views.

EDUCATION

Bachelor of Engineering (B.E.), Computer Engineering
D A Degree Engineering and Technology, Mahemdabad, Gujarat, India | 01/2022 - 07/2025
Cumulative Grade Point Average (CGPA): 8.47 / 10
